

Student Supplemental Statement

For Alternative Income Documentation
PCOM Financial Aid Application 2010-2011

I hereby request consideration of my financial aid application using alternative income information to that requested for my parents. Currently or prior to my enrollment in PCOM, I have had means of support other than financial aid. The documentation of my financial support is attached.*

Check off the statement that best describes your situation.

I entered PCOM after spending more than 12 months in the workplace in fulltime employment;

I am married and have income and or support other than my parents

I provide more than half support for dependents of my own . (Please list dependent's names)

I am attaching a letter explaining my circumstances that do not fit any of the above reasons, but explains why I think that parental information is not appropriate for my application.
First time requests for this reason must be documented. Applicants can assume that previously submitted documentation is on file.

Print Name

Student's signature

Date

***Attachment:**

Income documentation for the last calendar year in which you received income must be attached. In most cases the student's and, if applicable, spouse's signed 2009 federal tax return will meet the documentation requirement. Additionally, a federal 1099 statement of non-taxable benefits can be submitted.
