

MASTER OF SCIENCE IN BIOMEDICAL SCIENCES (MS)

Gain a Competitive Edge for Medical School

PCOM's Master of Science in Biomedical Sciences program is designed to give aspiring medical students a competitive edge in their journey towards becoming physicians. Through advanced training, comprehensive resources, and a direct linkage with PCOM's Doctor of Osteopathic Medicine (DO) program, our MS program equips students with the skills, knowledge, and confidence to succeed in medical school.

10 Ways PCOM's Biomedical Sciences Program Prepares You to Succeed in Medical School

1. Curriculum Alignment: Experience coursework that closely parallels the first year of medical school including subjects like biochemistry, physiology and anatomy.
2. Academic Preparedness: Gain expertise in medical and scientific concepts vital for patient care and healthcare innovation, while honing the study skills needed to thrive in a high-stakes academic environment.
3. Exam Readiness: Our testing methods mirror medical school standards, preparing you to excel under pressure in medical education exams.
4. PCOM-DO Linkage: Qualified students may secure early conditional acceptance into PCOM's Doctor of Osteopathic Medicine program.

"I knew that some of the classes in the biomedical sciences program at PCOM Georgia mimicked those of the osteopathic medicine program, and I felt that they would prepare me well, not only in terms of the material, but in learning how to develop efficient study habits with a high course load."

- HUNTER VASQUEZ, MS/BIOMED '21

5. **Tailored Learning Pathways:** Choose between a one-year accelerated MS program for rapid preparation or a two-year option with specialized concentrations, including Biomedical Research and Translational Life Sciences, each designed to enhance medical school readiness and expertise in specific fields.
6. **Research Experience:** Engage in leading-edge biomedical research to sharpen analytical and problem-solving skills highly valued in medical school and beyond.
7. **Proven Track Record:** Join a program with a history of success; many of our graduates have successfully matriculated into medical school.
8. **Faculty Guidance:** With access to faculty mentors who also teach in the DO program, students receive insights that directly support their medical school journey.
9. **Letters of Recommendation:** Earn strong endorsements from faculty who recognize and support your capabilities.
10. **Inclusive, Diverse Learning Environment:** At PCOM, PCOM Georgia and PCOM South Georgia, students benefit from a supportive, diverse community that fosters growth and collaboration in healthcare.

“Attending the same lectures as first-year medical students was an immersive learning experience that has boosted my confidence and assured me of a smoother transition to medical school.”

– JANAI GROVES, MS/BIOMED '22

Start Your Medical School Journey With Confidence

Take the next step toward your medical career with confidence. Visit pcom.edu/biomed or reach out to our admissions team at admissions@pcom.edu to discover how PCOM's MS in Biomedical Sciences can make a difference in your medical school journey—and your future in healthcare.

To find out more about our admissions requirements or to apply, please visit pcom.edu/admissions.
