

# HEALTH IS EVERY THING

PCOM®

**YOUR EDUCATION IN WHOLE-PERSON  
HEALTH STARTS HERE. AT PCOM, WE  
ARE A UNIFIED TEAM WHO DIG DEEPER,  
WORK WITH INTENTION AND PRIORITIZE  
CONNECTION WITH ONE ANOTHER AND  
THE COMMUNITIES WE SERVE. WE HAVE  
SEVERAL HOMES, BUT WE ARE ONE ENTITY,  
SHARING KNOWLEDGE THAT STRENGTHENS  
OUR IMPACT, CREATING WELL-ROUNDED  
HEALTHCARE CHAMPIONS. PCOM.EDU.**

# BRING YOUR HUMANITY TO HEALTHCARE

Grounded in our belief that health is everything, at PCOM, we train compassionate, collaborative practitioners who listen to their patients, uncovering unique healthcare solutions for each individual.

We know that being healthy isn't just how you feel or how long you live; health is every little detail and how it all comes together. That's why we've made whole-person health our profession, our passion and our life's work. Because we've learned that whole-person health is about connecting—connecting the pieces and connecting the people.

Since our founding in 1899, PCOM has been at the forefront of health education—expanding both geographically and academically. What began as a medical school, training students in the osteopathic tradition, has now grown into a robust hub of programs. Our mission is to educate the next generation of healthcare champions, to advance the science of health and to improve the lives of the patients we treat. At PCOM, our graduates are trained for meaningful careers that are as diverse as the communities they serve, and their education fosters interdisciplinary collaboration and sparks innovative ways of thinking. This prepares future health professionals to be adaptive leaders in their fields.

Embracing this whole-person philosophy unlocks new possibilities in the world of care—allowing us to connect with patients on a deeper level to find a brighter, healthier future for all.

Students at PCOM are immersed in an integrated, team-oriented approach to learning.

Many PCOM students are highly engaged in their communities through a wide variety of philanthropic efforts and advocacy.

PCOM has been a leader in health education for more than a century. We have expanded our mission to include two additional locations in Suwanee, Georgia, and Moultrie, Georgia.

# AN ACADEMIC ENVIRONMENT OF COLLABORATION AND SUCCESS

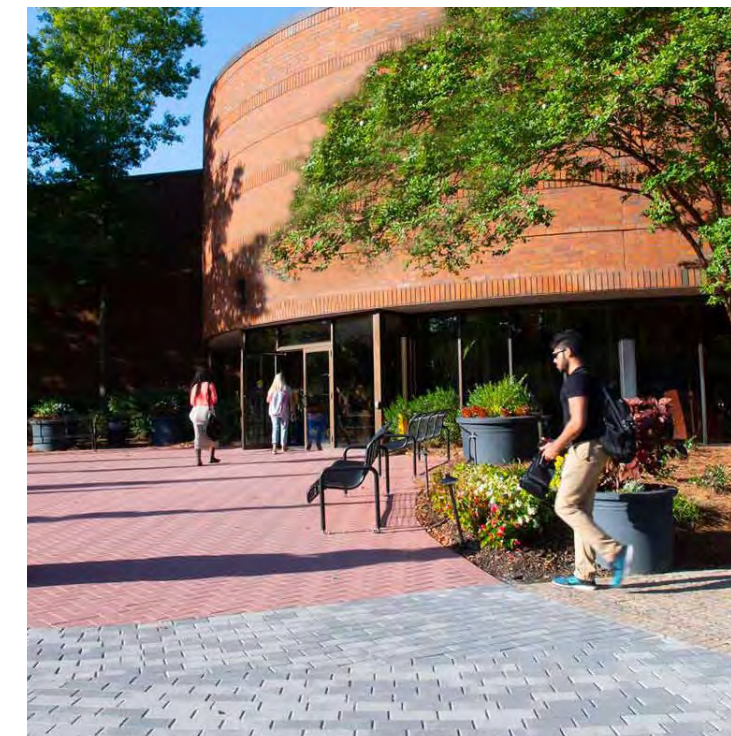

PCOM's focus on collaboration and teamwork unifies students from a wide range of academic programs to train as an integral part of a healthcare team, providing superior care for their future patients. Learning these essential skills, our students are empowered to lead and adapt to the unique challenges of an ever-evolving healthcare landscape.

Through interdisciplinary learning, we enhance the educational experience of students from across our three campuses. Our Interprofessional Education (IPE) training, abundance of shared spaces, and hands-on learning opportunities create a community with a team-first approach. Faculty care deeply about equipping their students for success—both academically and professionally. They work closely with students in an experiential learning environment and support them through every step of their educational journey.

These opportunities allow PCOM students to learn as part of a healthcare team in a medical school environment that integrates a whole-person philosophy.

“At PCOM, we promote wholeness and wellness. Our holistic approach to health care integrates human connection with innovation and research. That focus informs everything we do—from our admissions process to curriculum design, to teaching and clinical work.”

—Jay S. Feldstein, DO '81,  
President and Chief Executive Officer

# + BUILDING ON A HISTORY OF SUCCESS: PHILADELPHIA

Philadelphia is home to some of the top hospitals and medical schools in the nation, making it the ideal environment to build a network and launch a career in the world of health care.

Our campus features the Saltzburg Clinical Learning & Assessment Center with simulation rooms, our renowned Osteopathic Manipulative Medicine Teaching Center, immersive amphitheaters, a library, research and anatomy labs, a gym, a cafeteria, meditation spaces and more.

In the Saltzburg Clinical Learning & Assessment Center, students have the opportunity to work with standardized patients and participate in a full range of simulated clinical medical procedures.

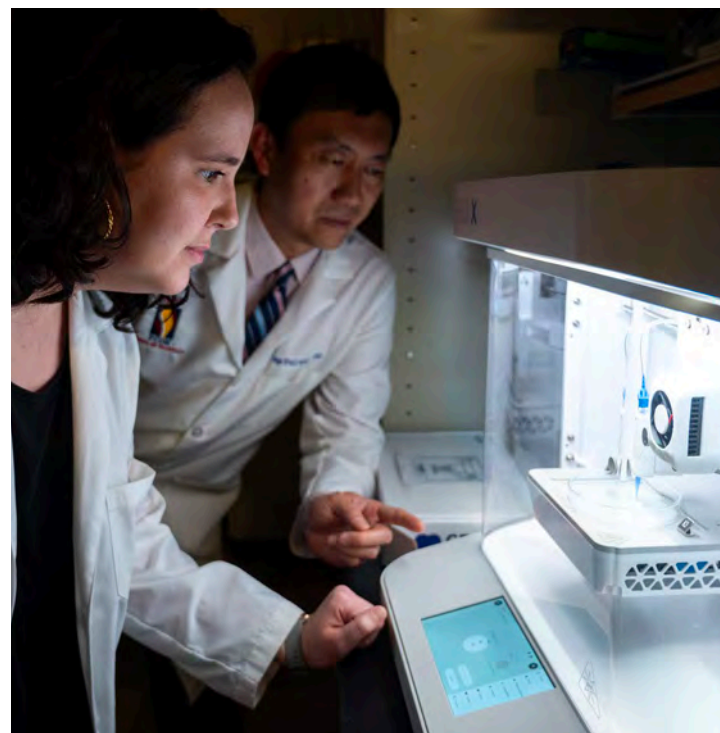

Our 55,000-square-foot Activities Center offers recreation spaces, an onsite gym and an open-air deck with a view of the Philadelphia skyline.

## PROGRAMS OF STUDY

Applied Behavior Analysis (MS, CGS)  
Applied Positive Psychology (MS)  
Biomedical Sciences (MS, CGS)

Physician Assistant Studies (MS)  
School Psychology (PsyD, EdS)  
Cancer Biology (PhD)

PCOM's Healthcare Centers around Philadelphia give students hands-on experience in providing whole-person treatment as members of an interdisciplinary team.

# + EXPANDING OUR MISSION IN GEORGIA

Guided by our belief that health is everything, we are committed to training osteopathic physicians and healthcare professionals who will support the underserved regions that need it most.

We opened our PCOM Georgia and PCOM South Georgia campuses to address a critical lack of healthcare providers around the state. Today, both of our Georgia locations collaborate with their communities to improve access to quality care, while educating the next generation of healthcare professionals.

## PCOM Georgia

Our PCOM Georgia campus located in Suwanee, GA, offers many resources in its 172,000-square-foot facility that houses classrooms, conference areas and study spaces, multiuse laboratories, an anatomy lab, pharmacy practice labs, a simulation center, a large osteopathic manipulative medicine practice suite, a cafeteria and more. All of these resources help students become the best physicians and healthcare professionals who focus on treating the whole person.

## PROGRAMS OF STUDY

Biomedical Sciences (MS, CGS)  
Preclinical Sciences, One-Year Program  
Medical Laboratory Science (MS)  
Osteopathic Medicine (DO)  
Pharmacy (PharmD)  
Physical Therapy (DPT)  
Physician Assistant Studies (MS)

## PCOM South Georgia

Our PCOM South Georgia campus is located in Moultrie, GA. This 75,000-square-foot facility includes state-of-the-art classrooms, an anatomy lab, an osteopathic manipulative medicine lab, a simulation center, small group study rooms, an information commons and a café.

## PROGRAMS OF STUDY

Biomedical Sciences (MS, CGS)  
Preclinical Sciences, One-Year Program  
Osteopathic Medicine (DO)

# AT PCOM, HEALTH IS EVERYTHING.

We train  
champions of  
whole-person  
health who  
become part of a  
lifelong collective,  
caring for their  
communities today  
and for the future.

## Applying to PCOM

Early applications are strongly encouraged, as admissions decisions are made on a rolling basis for any PCOM academic program. Details are listed on the application requirements page for your program of interest.
