2:00 PM – Review of Principles of Diagnosis and Treatment with Still Technique of the Cervical Spine

2:30 PM – Diagnosis and Treatment of the Cervical Spine

3:30 PM – Putting It All Together: Identifying Key Dysfunctions and Sequencing Treatment

4:30 PM – Questions and Answers

COURSE DESCRIPTION:

This 12-hour course will introduce Still Technique, place it in historical perspective, and teach physicians how to diagnose and treat with this efficient and effective osteopathic manipulative method. The course will address treatment strategies, as well as teaching techniques, including how to identify the key dysfunction. This course will be appropriate for physicians new to Still Technique, as well as refining and updating techniques for those who have been using it for years. We are fortunate to have the doctor who developed this method into a systematic approach as the primary faculty for this course; Dr. Van Buskirk will teach us the basic technique as well as recent revisions that he has made to enhance further the effectiveness of this method.

****This program includes the Still Technique Manual 2nd Edition**

CONTINUING EDUCATION CREDIT

AOA Credit: The Philadelphia College of Osteopathic Medicine is accredited by the American Osteopathic Association of medical education for physicians. The Philadelphia College of Osteopathic Medicine designates this program for a maximum of 12 hours of AOA Category 1-A credits and will report CME and specialty credits commensurate with the extent of the physician's participation in this activity.
