OBJECTIVES

Participants will be able to:

- Discuss the field of forensic psychiatry, its background and practice standards
- Identify the role of the child and adolescent forensic psychiatrist in juvenile/family courts
- Describe code components of forensic psychiatry fellowship and training pathways
- Know the role pediatric psychologists can play in a variety of medical settings
- Recognize psychological interventions that can support adherence and motivation in pediatric patients
- Describe models for integrating psychology into medical settings
- Explain electronic mental health interventions
- Identify commonly used electronic mental health interventions
- Compare the pros and cons of the use of mental electronic health interventions

CONTINUING EDUCATION CREDIT

The Philadelphia College of Osteopathic Medicine is accredited by the American Osteopathic Association to provide osteopathic continuing medical education for physicians. The Philadelphia College of Osteopathic Medicine designates this program for a maximum of **6 hours of AOA Category 1-A credits** and will report CME and specialty credits commensurate with the extent of the physician's participation in this activity.
